SEMINAR OVERVIEW

How many times have you delivered the perfect adjustment, then started the patient on an appropriate stretching and exercise program only to have the same subluxation patterns come back over and over again. In Chiropractic School we were taught all about the “viscero-somatic” reflex in relationship to subluxation patterns, but not really how to address them. In this class we will go over an objective systematic approach to the viscero-somatic reflex, how to find it and how to fix it!

*This is a hands-on workshop: Dr. Robbins requests that attendees, who can, bring a blood pressure cuff and stethoscope.

BAHAN CONSULTING, LLC
5317 HIGHPOINTE LAKES DR. UNIT 401
WESTERVILLE, OH 43081
